DDS551 is a 29W meter Tunable White led strip with 210 led 3014 + 210 led 3014 per meter. To produce our indoor flexible LED strips, we use 3-step McAdam LEDs with high CRI and high R9, gold plated flexible double side PCB and constant current control inside the LED strip. Thermal conductive adhesive tape guarantees perfect heat transfer to the mounting surface.

All of our product features guarantee extra long lifetime and stable performance. Our flexible LED light strips are designed for long term professional lighting applications and perfectly fit in any linear applications.
